**RE: DOMETIC STANDARD TRIM TAB SYSTEM**

Dometic is pleased to announce the launch of SeaStar Standard Trim Tab Systems. It is the only trim tab system with an intuitive dial controller that eliminates the guess work from determining which button to press. The controller and actuators work together to give exceptional response and precision when it comes to vessel control. It allows the boat driver to keep both eyes on the horizon while adjusting for pitch and roll independently for the ultimate control.

**Key features of the new Standard trim tab system include:**

- The ability to adjust pitch independent of the roll and roll independent of pitch
- The pitch and roll can be adjusted while on the go while keeping your focus on the water
- Programmable favorite button to save desired tab position for one touch planing
- Auto-retract upon key off
- Auto sensing LED brightness for night time operation
- One touch tab up and down buttons and home button provides quick response
- Cosmetic embellishment plate included with retail kit
- Easy installation to add a 2nd station
- 316 stainless steel mounting hardware
- Kits come complete with actuators, controller, harnesses, hardware and stainless steel tabs
- Kits are available in a variety of standard and edge mount tab sizes

The Dometic SeaStar Standard trim tab system is the most intuitive system on the market at an affordable price. The standard trim tab system is the ultimate combination of design, function and ease of use. Available now, this innovative product has been designed with the boater in mind and provides what customers expect from Dometic, "mobile living made easy".
