DOMETIC STANDARD TRIM TAB PRODUCT OFFERING

Standard Trim Tab System

Available NOW

System Components

- Intuitive dial controller
- Standard electric actuator
- Stainless steel tabs
- Cosmetic cover (retail kit only)
- Programmable favorite
- Variety of tabs sizes available in edge and standard mount
- Environmentally friendly
- Complete kits
- CE certified

This is the only standard trim tab system with an intuitive dial controller that eliminates the guess work from determining which button to press. The controller and actuators work together to give exceptional response and precision when it comes to vessel control.

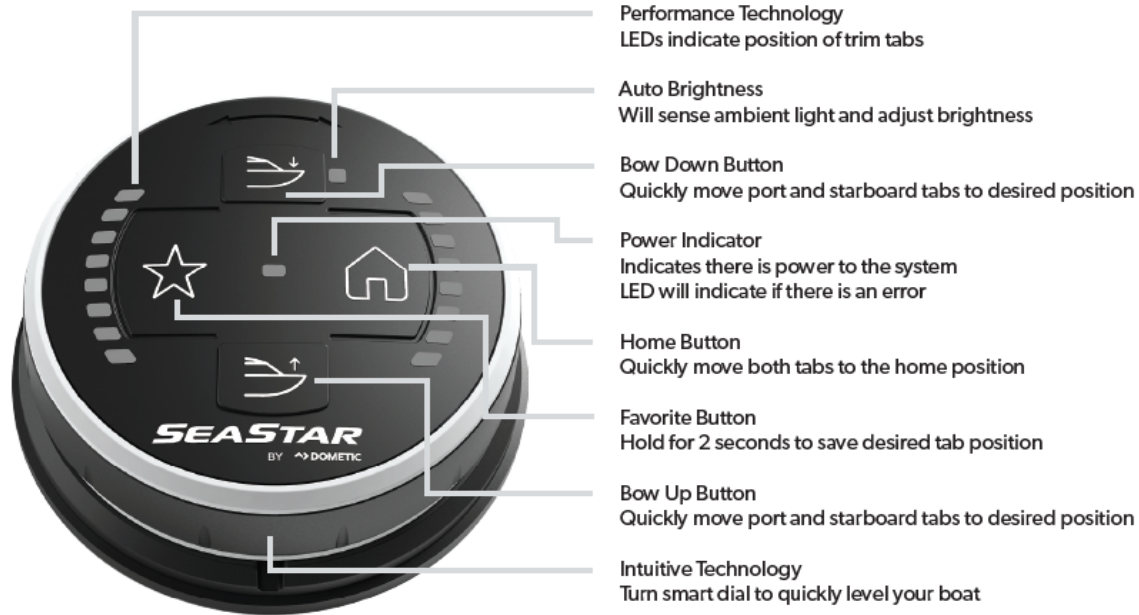

***This is a Trim tab system and not designed to work with competitors' actuators and controls**

STANDARD TRIM TAB SYSTEM – EASE OF USE

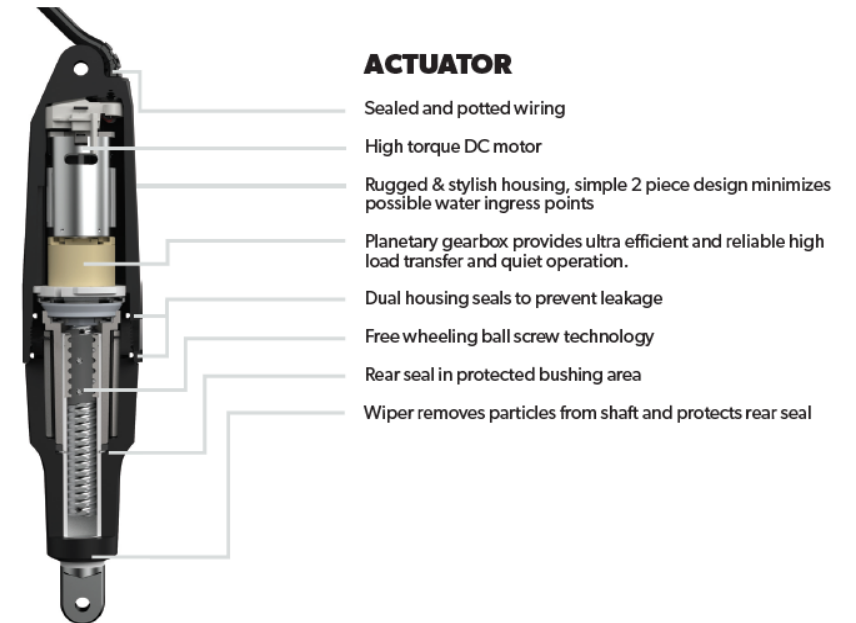

- The ability to adjust pitch independent of the roll and roll independent of pitch
- The pitch and roll can be adjusted while on the go while keeping your focus on the water
- Programmable favorite button to save desired tab position for one touch planing

STANDARD DIAL CONTROLLER

ENGINEERED FOR DURABILITY

ALL ELECTRIC DESIGN REDUCES COMPLEXITY AND INCREASES RELIABILITY.

STANDARD TAB FEATURES AND BENEFITS

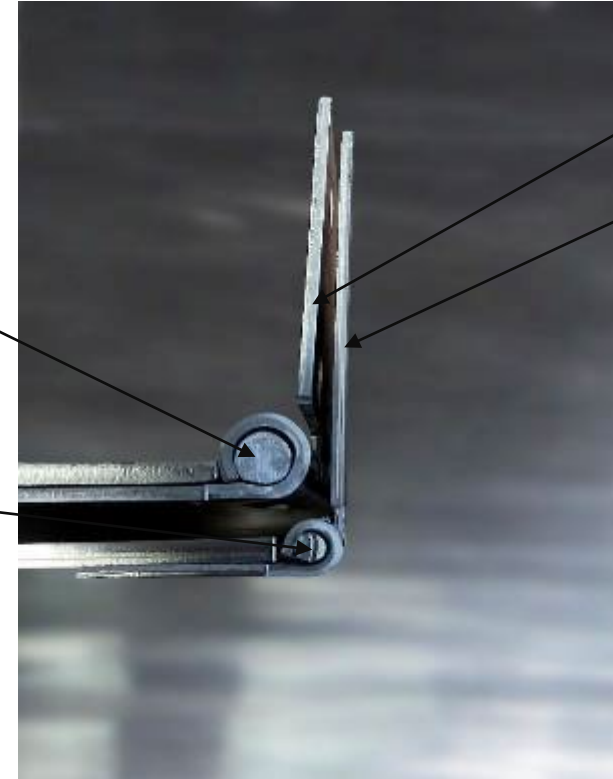

Dometic uses 316 grade stainless which is less susceptible to corrosion

Dometic uses 304 grade, 12-gauge stainless steel for tabs and can be electro polished (optional)

Dometic 0.25" diameter hinge pin

Competitor 0.09" diameter hinge pin

Dometic 14-gauge hinge vs Competitor 16-gauge hinge
